**State Bureau of Investigation**

**Please Note**

Figures used in this report are submitted voluntarily by law enforcement agencies throughout North Carolina. Individuals using these tabulations are cautioned against drawing conclusions by making direct comparisons between cities due to the existence of numerous factors which affect the amount and type of crime from place to place. Some of these factors are listed in this report. More valid use can be made of these figures by determining deviations from state averages and through comparisons with averages for cities in similar population groups. It is important to remember that crime is a social problem and, therefore, a concern of the entire community. The efforts of law enforcement are limited to factors within its control.

Prepared By

Issued November 2002

A special note of acknowledgment and gratitude is extended to the North Carolina's Governor's Crime Commission for generously providing the funding for printing and distribution of this publication and to the over 500 law enforcement agencies throughout North Carolina whose efforts have made this data available.

This publication, printed by N.C. Justice Academy, Salemburg, North Carolina, is issued by the North Carolina Department of Justice, State Bureau of Investigation. There have been 900 copies printed at an approximate cost of \$2,763, or \$3.07 per copy.

Copies have been deposited with the North Carolina State Publications Clearinghouse of the Division of State Library, North Carolina Department of Cultural Resources.

---

## Preface

I am pleased to provide you with the 28th edition of *Crime in North Carolina*. This document is based upon monthly offense and arrest reports compiled by law enforcement agencies across the state.

In 2001, the overall crime rate in North Carolina rose by 1.5 percent when compared with the 2000 rate. The number of property crimes (burglary, larceny and motor vehicle theft) committed per 100,000 people increased by 1.6 percent, while the number of violent crimes (robbery, murder, rape and aggravated assault) committed per 100,000 people rose by 0.7 percent.

These numbers are important because they give us reliable information about the safety of our state. An increase in the overall crime rate, the second such increase in 10 years, has occurred at a time when our economy is in a downturn. As unemployment figures for North Carolina have risen, so have property crime rates. At the same time, crime rates have actually decreased for all categories of violent crime except for robbery, which rose by 5.5 percent.

As we look ahead to a time when our economy begins to recover, we hope to see the decade-long drop in crime rates continue. To make sure that happens, we need to keep our focus on good law enforcement work with an emphasis on detection and prevention, tougher sentences for violent criminals and repeat offenders, and Truth in Sentencing that ensures that prisoners serve their time. We must also provide our law enforcement with the right training and the right equipment to get the job done.

As we look forward to the next year and decade, we can see that criminals will continue to look for new ways to prey on us. Our State Bureau of Investigation is already dealing with a sharp increase in clandestine drug labs here in North Carolina. In addition, criminals are turning to new methods to perpetrate old crimes, using the Internet to commit theft and to exploit children. We are working to improve our computer forensics lab so that we can crack down on these cases, especially child pornography and exploitation. Another pressing need is for more DNA analysis of rape kits. Reports of rapes are down, but there are still rape kits waiting to be tested. The SBI has the technology and know-how to process these kits, but it needs the resources to do it. Our officers are dedicated professionals and public servants, and we must make sure that they have the tools they need to keep our state safe, especially during these tough times.

On behalf of all North Carolinians, I thank each of the people in our more than 490 North Carolina law enforcement agencies for their annual assistance with this document and for their daily work in the fight against crime.

Roy Cooper  
Attorney General

## Foreword

In 1969 the Division of Criminal Information (DCI), then called the Police Information Network, was created to provide criminal justice information to all North Carolina law enforcement and criminal justice agencies. Since 1973, law enforcement agencies throughout North Carolina have voluntarily submitted data to the State Bureau of Investigation (SBI) on specific crimes committed in their areas of jurisdiction.

The information and statistics presented in this annual are an assessment of those reports submitted for 2001 and represent an overview of the statewide problems associated with those crimes. Once this data is compiled from monthly reports submitted to the SBI, it is furnished to the Federal Bureau of Investigation for tabulation in their national publication called *Crime in the United States*.

This publication is printed with the hope that it will not only assist law enforcement administrators in determining their priorities in the fight against crime, but that it will prove to be a vital resource to researchers, educators and other public and private agencies involved with criminal justice in North Carolina. We believe that the collection of crime statistics will increase awareness for all citizens and by studying these statistics there will be a greater understanding of the problems facing law enforcement. Hopefully this will result in constructive improvement of our criminal justice system.

Robin P. Pendergraft  
SBI Director

**North Carolina State Bureau of Investigation**  
**Statement of Policy**  
**For Release of Crime Reporting Data**

The following policy will be observed by the State Bureau of Investigation concerning the release of all crime data collected under the summary Uniform Crime Reporting and Incident Base Reporting standards. Employees of the SBI shall not deviate from this policy without the express consent of the SBI Assistant Director for Administrative Services or the SBI Director.

**Public Access:**

1. Any crime data submitted to the State Bureau of Investigation will be made available for public release once that data has been edited, verified for accuracy, and put in final form.
2. The SBI has the authority to charge for the release of crime data to non-criminal justice contributors to recover the costs in providing the information.
3. All crime data to be released will originate from the SBI's Planning and Research Unit due to periodic updating.

**Official Publications:**

1. The SBI will publish an annual report reflecting crime in North Carolina. This report will be distributed to the governor, members of the legislature, the attorney general, law enforcement agencies or any agency or committee dedicated to law enforcement or criminal justice work. The SBI and its Advisory Policy Board have the authority to place a charge on the annual publication, *Crime in North Carolina*, to recover the cost of publishing the document.
2. Law enforcement agencies are asked to comply with the release dates and times of official publications such as *Crime in North Carolina*, the *Semi-Annual Report*, and the Initial Annual Report entitled *Crime in North Carolina*.

**Law Enforcement Access:**

Criminal justice agencies will have their own data and other contributors' data available to them at all times for the purposes of crime prevention, crime pattern detection, or other related needs in combating crime.

## Dedication

This publication is dedicated to all law enforcement officers, and in particular to those who have lost their lives while upholding the laws and serving the citizens of North Carolina.

The following officers were killed feloniously in the line of duty:

**Brian Joe Ramey** - Bladenboro Police Department  
May 12, 2001

**Monica Williams Carey** - Clayton Police Department  
September 14, 2001

**James Brian Collins** - Bladen County Sheriff's Office  
September 26, 2001

**Roy Gene Turner, Jr.** - Fayetteville Police Department  
November 30, 2001

**Donald Matthew Miller** - New Bern Police Department  
December 25, 2001

The following officers were killed accidentally in the line of duty:

**John H. Duncan, Jr.** - North Carolina Highway Patrol  
January 9, 2001

**David L. Taylor, Jr.** - Greensboro Police Department  
August 7, 2001

**Jesse Lee Pratt** - Anson County Sheriff's Department  
September 14, 2001

**Calvin Eugene Taylor** - North Carolina Highway Patrol  
October 3, 2001

**Sheila Dianne Twyman** - High Point Police Department  
December 23, 2001

## North Carolina Uniform Crime Reporting Program

---

# The North Carolina Uniform Crime Reporting Program

---

## Purpose of UCR

The North Carolina Uniform Crime Reporting (UCR) Program is part of a nationwide, cooperative statistical effort administered by the Federal Bureau of Investigation. While the program's primary objective is to generate a reliable set of criminal statistics for use in law enforcement administration, operation, and management, its data have over the years become one of the country's leading social indicators. The American public looks to Uniform Crime Reports for information on fluctuations in the level of crime, while criminologists, sociologists, legislators, municipal planners, the press, and other students of criminal justice use the statistics for varied research and planning purposes.

## History of UCR

### The National Program

Recognizing a need for national crime statistics, the International Association of Chiefs of Police (IACP) formed the Committee on Uniform Crime Records in the 1920s to develop a system of uniform police statistics. Establishing offenses known to law enforcement as the appropriate measure, the committee evaluated various crimes on the basis of their seriousness, frequency of occurrence, pervasiveness in all geographic areas of the country, and likelihood of being reported to law enforcement. After studying state criminal codes and making an evaluation of the record keeping practices in use, the Committee in 1929 completed a plan for crime reporting which became the foundation of the UCR Program.

Seven offenses were chosen to serve as an Index for gauging fluctuations in the overall volume and rate of crime. Known collectively as the Crime Index, these offenses included the violent crimes of murder and nonnegligent manslaughter, forcible rape, robbery, and aggravated assault, and the property crimes of burglary, larceny-theft, and motor vehicle theft. By congressional mandate, arson was added as the eighth Index offense in 1979.

During the early planning of the program, it was recognized that the differences among criminal codes precluded a mere aggregation of state statistics to arrive at a national total. Further, because of the

variances in punishment for the same offenses in different state codes, no distinction between felony and misdemeanor crimes was possible. To avoid these problems and provide nationwide uniformity in crime reporting, standardized offenses definitions by which law enforcement agencies were to submit data without regard for local statutes were formulated.

In January 1930, 400 cities representing 20 million inhabitants in 43 states began participating in the UCR Program. Congress enacted Title 28, Section 534, of the United States Code authorizing the attorney general to gather crime information that same year. The attorney general, in turn, designated the FBI to serve as the national clearinghouse for the data collected. Since that time, data based on uniform classifications and procedures for reporting have been obtained from the nation's law enforcement agencies.

Providing vital links between local law enforcement and the FBI in the conduct of the UCR Program are the Criminal Justice Information Systems Committees of the IACP and the National Sheriff's Association (NSA). The IACP, as it has since the Program began, represents the thousands of police departments nationwide. The NSA encourages sheriffs throughout the country to participate fully in the Program. Both committees serve in advisory capacities concerning the UCR Program's operation.

To function in an advisory capacity concerning UCR policy and provide suggestions on UCR data usage, a Data Providers' Advisory Policy Board (APB) was established in August 1988. The board operated until 1993 when a new board to address all FBI criminal justice information services was approved. The Board functions in an advisory capacity concerning UCR policy and on data collection and use. The UCR subcommittee of the board ensures continuing emphasis on UCR-related issues.

The Association of State Uniform Crime Reporting Programs and committees on UCR within individual state law enforcement associations are also active in promoting interest in the UCR Program. These organizations foster widespread and more intelligent use of uniform crime statistics and lend assistance to contributors when needs arise.<sup>1</sup>

## The North Carolina Program

The growing need for a central computerized network of criminal justice information for the state of North Carolina prompted an extensive survey by the Governor's Law and Order Committee in 1968. Following this committee's report, the general assembly enacted legislation in 1969 creating the Police Information Network under the Department of Justice.

The Police Information Network (PIN) was given the authority under N.C.G.S. 114-10 to collect and correlate information regarding the administration of criminal laws; to maintain and control the access to such information that is required for the performance of criminal justice duties; and to make analysis and comparisons of this data in cooperation with local, state, and national criminal justice agencies.

In 1985, the Police Information Network was made part of the State Bureau of Investigation (SBI) by order of the attorney general and merged with the SBI's Identification Section creating the Division of Criminal Information (DCI). In 2000, the Uniform Crime reporting Program was removed from DCI and is now being administered by the State Bureau of Investigation's Planning and Research unit.

## Crime Factors

The amount and rate of crime for a particular community can sometimes be quite deceiving unless several factors are taken into consideration. Some of the factors which are known to affect the volume and type of crime occurring from place to place are:

- Population density and degree of urbanization with size of locality and its surrounding area.
- Variations in composition of the population, particularly youth concentration.
- Stability of population with respect to residents' mobility, commuting patterns, and transient factors.
- Modes of transportation and highway system.
- Economic conditions, including median income, poverty level, and job availability.
- Cultural factors and educational, recreational, and religious characteristics.
- Family conditions with respect to divorce and family cohesiveness.
- Climate.
- Effective strength of law enforcement agencies.
- Administrative and investigative emphases of

law enforcement.

- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, and correctional).
- Citizens' attitudes toward crime.
- Crime reporting practices of the citizenry.

The Uniform Crime Reports give a statewide view of crime based on statistics contributed by law enforcement agencies. Population size is the only correlation of crime utilized in this publication. While the other factors listed above are of equal concern, no attempt is made to relate them to the data presented. The reader is, therefore, cautioned against comparing statistical data of individual reporting units from cities, counties, metropolitan areas, or colleges and universities solely on the basis of their population coverage or student enrollment.<sup>1</sup>

## Method of Data Collection

### Reporting Procedures

In the statewide Uniform Crime Reporting Program, contributing law enforcement agencies are responsible for compiling their own crime reports and submitting them to the SBI. In an effort to maintain quality and uniformity in the data received, SBI Training Specialists provide training in crime reporting procedures. All contributors are provided procedures for scoring, classifying, and reporting criminal offenses and arrests.

All crime reporting agencies report the number of offenses and associated crime data in the following crime categories: murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson. These data, known as Part I Offenses, are taken from a record of all complaints of crime received by the law enforcement agency from victims, officers who discover infractions, or other sources.

Whenever complaints of crime are determined through an investigation to be unfounded or false, they are eliminated from an agency's count. The number of "actual offenses known" is reported to the SBI regardless of whether anyone is arrested for the crime, stolen property is recovered, or prosecution is undertaken.

Another integral part of an agency's data is the total number of actual Part I offenses cleared. Crimes are "cleared" in one of two ways: (1) at least one person is arrested, charged, and turned over to the court for prosecution; or (2) by exceptional means when some element beyond law enforcement control precludes the arrest of an offender. Law enforcement agencies also report the number of Part I offenses clearances which involve only offenders under the age of 18; the value of property stolen and recovered in connection with the offenses; and detailed information pertaining to criminal homicide, rape, and arson.

In addition to its primary collection of Part I offenses, the UCR Program solicits data on persons arrested for all crimes except traffic violations. The age, race, and sex of arrestees are reported by crime category for both Part I and Part II offenses. Part II offenses include all crimes not classified as Part I crimes. Various data on law enforcement officers killed or assaulted are also collected. The number of full-time and part-time sworn and civilian personnel are reported as of October 31 of each year.

### **Verification Procedures**

An obvious concern in the collection of crime statistics is the validity and uniformity of the data received. With the voluntary submission of crime reports from over 450 jurisdictions, the problem of attaining uniformity is readily apparent. Crime data submitted to the SBI are reviewed for compliance with reporting standards to ensure accuracy and completeness. Data reliability is a high priority and noted deviations or arithmetical adjustments are brought to the attention of the submitting agency by contact through an SBI Training Specialist. A great deal of the success of North Carolina's UCR Program has largely been due to the training staff assigned to assist local agencies in record keeping practices and crime reporting procedures.

The SBI has also developed an audit program to assess and document the accuracy and integrity of the crime data reported to the UCR program. Although the SBI makes every effort through audits, editing procedures, training practices, and correspondence to assure the validity of the data it receives, the statistics' accuracy depends primarily on the adherence of each contributor to the established standards of reporting.

### **Field Representation**

For Uniform Crime Reporting purposes, the state is divided into nine districts. An SBI Training Specialist is assigned to each district to assist local agencies in

many areas including record keeping practices and crime reporting procedures. Education of contributors to the program must be a constant operational requirement, if continued system adherence and valid statistics are to be expected.

### **UCR Limitations**

**N. C. UCR Program** — Information currently collected by the North Carolina Program is generally the same as that gathered by the national system, and the methods of classifying and scoring (counting) offenses and arrests are the same. This readily enables comparisons with other states and the nation, but the information gaps present in the national program are also inherent in North Carolina's system.

**Primary Purpose** — The Uniform Crime Reporting Program has been subject to much criticism during its history, and while many of these commentaries have been valid, at least some of the shortcomings are understandable when it is remembered that the program has been developed to furnish management information for use primarily by law enforcement agencies.

The Uniform Crime Reports are not a court or corrections statistical program. They are not designed to furnish an overview of the workings of our entire criminal justice system, nor are they able to give the complete picture of law enforcement activity. The main goal of the UCR Program is to furnish police administrators with a measure of their activities and operational problems as indicated by the number of reported offenses, arrests, clearances, and the like.

Therefore, much of the criticism of the UCR Program itself is weakened when its stated purpose is kept in mind. Uniform Crime Reports data are the best crime information currently available since they reflect the key events (criminal offenses) that set in motion the various phases of our criminal justice process. The number of arrests, prosecutions, or convictions, while capable of more precise measurement, nevertheless is less indicative of the amount and nature of crime because such data is further removed from the original event. But, because the Uniform Crime Reporting Program is the only recurring crime and arrest reporting program operating on a national level, of necessity it serves as the base for assessing the many significant information gaps at the input end of the criminal justice system.

**Type Data Collected** — A first step in the control of crime is to ascertain the true dimensions of the problem. However, present statistics, as gathered by the UCR Program, measure neither the real incidence of crime nor the full amount of economic loss of victims. Information regarding the number of property stolen and covered data is requested only for property stolen in Part I offense categories. There is no calculation made for property damaged except in the arson offense classification.

For the Part II offenses (except simple assault), the only information submitted is the number of arrests for these crimes according to the age, sex, race, and ethnicity of the subject. Consequently, there is no record of the actual number of these offenses occurring.

Moreover, the broad categorization of this data does not allow an examination of the number of offenses reported nor the arrests made for such offenses as spouse abuse, the writing of worthless checks, and kidnaping. The number of these particular offenses or arrests, as well as others, is included in such general categories as Assault, Fraud, and All Other Offenses.

Although some victimization data are collected in the offense categories of Homicide and Rape, there is no record of the victims of Robbery, Assault, Burglary, and the remainder of the UCR Part I and II Offenses.

**Degrees of Seriousness** — The Crime Index does not explicitly take into account the varying degrees of seriousness of its components. Each crime receives the same weight as it is added to the Index. Consequently, an auto theft is counted the same as a murder, and an aggravated assault is weighted equally with an attempted burglary. Any review of crime must consider the volume, rate, and trend of each offense that comprises the Index and the relationship between these crimes.

**UCR Classification and Scoring Procedures** — The North Carolina and National Uniform Crime Reporting Programs are designed to measure offenses committed and persons arrested, and difficulty can arise if this distinction is not kept firmly in mind. Crimes relate to events, but arrests relate to persons. The classifying and scoring of one robbery, for instance, could involve several offenders, several victims, and even the commission of other offenses which would go unreported for UCR purposes.

Even more of the total crime picture is lost when arrests are scored. UCR counts only the number of

people arrested and not the number of charges per person. Clearly, one arrest could involve any number of different or similar charges against one offender.

**Value of Property Stolen and Recovered** — What effect the rate of inflation may be having on the report of these data along with other factors affecting these sums is impossible to calculate. The UCR methods of valuing stolen property involve the acceptance of the victim's evaluation in most instances, and exaggeration of these figures is quite possible.

**Juvenile Crime Data** — The accuracy of juvenile offenses and arrest statistics varies from department to department since the procedures for handling juveniles are not nearly as uniform as those for adults. Many juvenile offenders are handled informally and, as a consequence, inaccurate or incomplete recording of the event or action may result. Furthermore, the degree of juvenile involvement in solved offenses is probably seriously misunderstood because juvenile participation in clearances is recorded only when juveniles are exclusively involved. When both adults and juveniles are subjects in a clearance, the juvenile participation is not reported.

**Reporting Variation** — North Carolina now receives Uniform Crime Reports from over 450 law enforcement agencies monthly. Because the number of reporting agencies is so large, one must be aware that unintentional variations from UCR guidelines may occur and pass undetected, affecting the validity of the data presented here. Municipal ordinances, local criminal justice administrative policies, efficiency, and thoroughness of record keeping, and Uniform Crime Reporting proficiency and practices all affect the amount of crime and arrests reported. Furthermore, socio-economic conditions and the characteristics and attitudes of the local population influence the magnitude and nature of criminal behavior in a community.

**Conclusion** — The preceding comments should not be viewed as an indictment of the UCR Program which, admittedly, was designed to meet only the minimal operational requirements of a law enforcement agency. It is doubtful that those people tasked with creating this program some 60 years ago could ever have envisioned the informational demands now being placed on today's law enforcement. While current methods of gathering and reporting crime and arrest data provide a less than complete picture of criminality in our society, there is at present no other information system in general use that will more adequately perform this task.

## The Index of Crime

The crime index offense table can be used to indicate the probable extent, fluctuation, and distribution of crime for the state of North Carolina as a whole, by geographic divisions, by individual counties and cities, and by standard metropolitan statistical areas. The measure used is a Crime Index and consists of eight important offenses which are counted as they become known to the law enforcement agencies. Crime classifications used in the Index are: murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault, burglary-breaking and entering, larceny and motor vehicle theft. Arson was added as the eighth Index offense in 1979.

The total number of criminal acts that occur is unknown, but those that are reported to law enforcement provide the first means of a count. Not all crimes come readily to the attention of law enforcement; not all crimes are of sufficient importance to be significant in an index; and not all important crimes occur with enough regularity to be meaningful in an index.

## Classification of Offenses

UCR divides offenses into two major classifications which are designated Part I and Part II offenses. This distinction is important to keep in mind because different information is collected for each. Part I offenses include the violent crimes of murder and nonnegligent manslaughter, negligent manslaughter, forcible rape, robbery, and aggravated assault; and the property crimes of burglary, larceny-theft, motor vehicle theft, and arson. All other offenses are classified as Part II offenses (see "Offense Definitions" in this section). The Part I offenses, excluding negligent manslaughter and arson, are used to calculate the Crime Index and Crime Rate.

All offenses are classified on the basis of law enforcement investigations in accordance with UCR offense definitions (which will not necessarily coincide with N.C. statute definitions). Because UCR identifies a law enforcement problem, offense classifications are not based on the findings of a court, coroner, jury, or decision of a prosecutor.

## Scoring of Offenses

Only the number of those offenses for Part I crimes and simple assault are scored for UCR. The method of scoring varies with the type of crime committed and it is important to remember that the number of offenders does not determine the number of offenses. For murder and nonnegligent manslaughter, negligent

manslaughter, rape, and aggravated and simple assault, one offense is scored for each victim, regardless of the number of offenders involved. For example, three offenders could be involved in the murder of one victim, and in this case one murder would be scored.

For robbery and larceny, one offense is counted for each distinct operation which is separate in time and place. The number of victims in any one operation does not determine the number of offenses. For example, if ten people are robbed in a bar at the same time, only one offense is counted. However, if that robber then leaves the bar and holds up a passerby, a second offense has occurred and would be scored.

For burglary, one offense is counted for each "structure" which is illegally entered. For UCR purposes, a "structure" is generally defined as an enclosed, permanently occupied area. The illegal entries for the purpose of committing a felony or theft of such structures as dwelling houses, garages, offices, barns, and the like are considered burglaries, and one burglary is scored for each separate unit entered. The illegal entry of those structures used to house transients, such as hotel rooms, is scored as one burglary regardless of the number of these rooms that have been entered.

For motor vehicle theft, one offense is counted for each vehicle stolen. For UCR purposes, a motor vehicle is defined as any self-propelled vehicle that runs on the surface and not on rails or a body of water. Thefts of farm and construction equipment are excluded from this definition and are scored as larcenies. For arson, one offense is counted for each occurrence even if a more serious offense such as murder occurred as a result of the act. Additionally, any attempts to commit any of the above offenses are also counted with the exception of attempts or assaults to kill which are classified and scored under aggravated assaults.

For multiple offenses that occur in one crime incident (at the same "time and place"), only the most serious offense is counted with the exceptions of arson (always counted) and a combination of larceny and motor vehicle theft (only the motor vehicle theft will be counted). Part I crimes are ranked according to seriousness and appear in order from most serious to least serious (see order of crimes in Offense Definitions in this section). For example, a robbery and an aggravated assault have occurred, but because robbery is considered by UCR to be more serious, only the robbery is scored. From one perspective, this

method of counting seriously understates the crime problem; but from another, it prevents undue inflation of crime statistics. A Part II offense that occurs in combination with Part I offenses or by itself is not counted.

### **Clearances**

An offense is considered cleared (solved) when at least one offender is arrested for a crime, even though several may have been involved. Offenses may also be cleared by exceptional means when some element beyond law enforcement control precludes the placing of formal charges against the offender. Examples of circumstances allowing exceptional clearances are the death of the offender (suicide, justifiably killed by police or private citizen, etc.); the victim's refusal to cooperate with prosecution after the offender has been identified; or the denial of extradition because the offender committed another crime in a different jurisdiction and is being prosecuted there. In all exceptional clearance cases, law enforcement must have identified the offender, have enough evidence to support arrest, and know the offender's location. Keep in mind that not all crimes are cleared within the calendar year in which the offense occurs.

Clearances are counted as either "adult" or "juvenile." A "juvenile" clearance is counted only when juveniles are involved exclusively in the commission and clearance of an offense. If the arrest of both adults and juveniles results in a clearance, it is counted as an "adult" clearance.

### **Property Stolen and Recovered**

The figures for value of property stolen and recovered report the value at each point in time. Although property can increase in value over time, it is more likely that stolen property will be recovered in a damaged condition. Therefore, recovery value does not necessarily represent a "clearance rate" for stolen property, and one cannot use it to determine law enforcement effectiveness in recovering stolen goods. Because stolen and recovered property figures indicate thefts and recoveries in the current year, it is important to note that recovered property may have been stolen in a previous year. In addition, the type and value of stolen recovered property is reported only for Part I offenses and does not include property losses suffered as a result of the commission of any Part II offenses such as fraud or embezzlement.

As was stated under "UCR Limitations," these values are affected by many variables and must be considered estimates at best. It is sometimes difficult to trace

the recovery of some stolen property back to the offense or even the departmental jurisdiction in which the theft occurred. This coupled with the fact that the market value at the time of recovery is used instead of at the time of the theft should prompt cautious analysis of this data.

### **Arrests**

Arrest information is collected for all Part I and Part II offenses according to the age, sex and race of the offender. It is not possible, however, to correlate race with sex or specific ages because the information is collected independently, thus limiting analysis. Furthermore, arrest figures cannot be directly related to the number of crimes cleared because arrest totals count all the offenders who have been arrested even if several were involved in the commission of a singular offense. Therefore, arrest and clearance totals will be equal only by coincidence.

It should be kept in mind that arrest totals are not indicative of the number of different people involved in the commission of crime. A total of three arrests may represent the arrest of three different people or the arrest of the same person on three different occasions. Moreover, arrest totals also do not indicate the number of charges placed against an individual at the time of arrest.

### **Offense Definitions**

Offenses in Uniform Crime Reporting are divided into two groupings, Part I and Part II. Information on the volume of Part I offenses known to law enforcement, those cleared by arrest or exceptional means, and the number of persons arrested is reported monthly. Only arrest data are reported for Part II offenses.

#### **Part I Offenses**

##### **Criminal Homicide:**

###### **a. Murder and nonnegligent manslaughter:**

The willful (nonnegligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) the killing of a felon by a law enforcement officer in the line of duty; and (2) the killing of a felon by a private citizen.

###### **b. Manslaughter by negligence:**

The killing of another person through gross

negligence. Traffic fatalities are excluded.

While manslaughter by negligence is a Part I crime, it is not included in the Crime Index.

**Forcible Rape:**

The carnal knowledge of a female forcibly and against her will. Included are rapes by force and attempts or assaults to rape. Statutory offenses (no force used, victim under age of consent) are excluded.

**Robbery:**

The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

**Aggravated Assault:**

The unlawful attack by one person upon another for the purpose of inflicting severe bodily injury, usually accompanied by the use of a weapon or other means likely to produce death or serious bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed. Attacks using personal weapons (part of the attacker's body) must result in serious personal injury. Attacks using personal weapons (part of the attacker's body) must result in serious personal injury to be classified as aggravated assault. Simple assaults are excluded from this count.

**Burglary:**

The unlawful entry of a "structure" to commit a felony or theft. The use of force to gain entry is not required to classify the crime as burglary. Burglary is broken down into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

A "structure" is considered to include the following: dwelling houses, apartments, out buildings, public buildings, offices, factories, barns, cabins, etc.

**Larceny:**

The unlawful taking or stealing of property or articles without the use of force, violence, or fraud. This includes crimes such as shoplifting, purse snatching, pocket picking, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle theft, etc. This crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft is excluded from this category inasmuch as it is a separate Part I offense.

**Motor Vehicle Theft:**

The unlawful taking or stealing of a motor vehicle, including attempts. This definition excludes taking for temporary use by those persons having lawful access to the vehicle.

UCR defines a motor vehicle as a self-propelled vehicle that runs on the ground and not on rails. Examples included automobiles, trucks, buses, motorcycles, mopeds, snowmobiles, etc. Thefts of farm and/or construction equipment, boats, and airplanes are not included in this category but are counted as larcenies.

**Arson:**

The willful or malicious burning of property with or without the intent to defraud. Includes attempts.

**Part II Offenses**

**Other (Simple) Assaults:**

An unlawful attack or attempted attack upon another which does not result in serious injury to the victim and which does not involve the use of a dangerous weapon.

**Forgery and Counterfeiting:**

The making, altering, use or possession, with intent to defraud, of anything false which is made to appear true. Includes attempts.

**Fraud:**

Fraudulent conversion and obtaining money or property by false pretenses. Includes bad checks, confidence games, illegal conversion of services, etc., except forgeries and counterfeiting.

**Embezzlement:**

Misappropriation or misapplication of money or property entrusted to one's care, custody, or control. Includes larceny from employer.

**Stolen Property:**

The buying, receiving, and possessing of stolen property, or the attempt to do so.

**Vandalism:**

The willful or malicious destruction, injury, disfigurement or defacement of real or personal property without the consent of the owner or person having custody or control. Includes attempts.

**Weapons:**

All violations of regulations or statutes that control carrying, using, possessing, furnishing, and manufacturing deadly weapons or silencers. Includes attempts.

**Prostitution and Commercialized Vice:**

Sex offenses and attempted sex offenses of a commercialized nature. Includes prostitution, keeping houses of ill fame, pandering, detaining women for immoral purposes, etc.

**All Other Sex Offenses:**

All other offenses against common decency and morals. Includes statutory rape (without force) and all other sex offenses not previously defined.

**Drug Laws:**

The unlawful possession, sale, use, growth, or manufacture of controlled substances. For UCR purposes these offenses are broken down into four subcategories: a. Opium or cocaine and their derivatives (morphine, heroin, codeine), b. Marijuana, c. Synthetic narcotics — manufactured narcotics which can cause true drug addiction, d. Dangerous non-narcotic drugs.

**Gambling:**

Promoting, permitting, or engaging in illegal gambling. Includes bookmaking, numbers, and lottery, etc.

**Offenses Against the Family or Children:**

All charges of non-support and neglect or abuse of family or children. Note: Most child abuse, especially that resulting in injury, has been classified as either simple or aggravated assault.

**Driving While Impaired:**

Operating any motor vehicle or common carrier while under the influence of alcohol or drugs.

**Liquor Laws:**

Violation of state or local regulator laws. Includes sale to minors and drinking on a public conveyance. This category excludes Driving While Impaired and Drunk and Disorderly violations.

**Disorderly Conduct:**

Breaching the peace or attempting to do so. Includes violations of disturbing the peace, unlawful assembly, and drunk and disorderly.

**Vagrancy:**

Violation of state or local statutes pertaining to being a "suspicious character or person," vagrancy, etc.

**All Other Offenses:**

All violations of state or local regulatory laws except traffic offenses and offenses defined above or below. Includes kidnapping, extortion, trespass, etc.

**Curfew and Loitering Laws:**

Juvenile violations of local curfew and loitering ordinances.

**Runaways - (Juveniles):**

The unlawful truancy from a legal place of residence by a juvenile.

**Additional UCR Collections**

**Hate Crime Reporting**

In response to a growing concern about hate crimes, the President of the U.S. signed into law on April 23, 1990, the Hate Crime Statistics Act of 1990. The Act required the U.S. Attorney General to establish guidelines and collect, as part of the UCR Program, data "about crimes that manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity, including where appropriate the crimes of murder, forcible rape, aggravated assault, simple assault, intimidation, arson and destruction or vandalism of property."

The enactment of federal legislation requiring the collection and publication of nationwide hate crime statistics prompted the N.C. General Assembly to pass hate crime legislation. This legislation allows for stiffer penalties for crimes committed solely on the basis of hate and provided funding for the N.C. Justice Academy to train law enforcement agencies in hate crime reporting. The N.C. Justice Academy began training law enforcement agencies during the fall of 1992; and in 1997, the SBI began conducting hate crime training. This training continues statewide.

The SBI also provides assistance to agencies in hate crime reporting, such as providing forms, reporting assistance and statistical analysis. The SBI has modified its crime reporting forms to allow for the collection of hate crime. In 2001, law enforcement agencies reported 85 hate crime incidents. Hate crime incidents reported for 2001 are available in Chapter VI entitled *Hate Crime Reporting*.

## **Incident-Based Reporting**

The State Bureau of Investigation (SBI) has developed an Incident-Based Reporting (IBR) Program similar to the one developed by the Federal Bureau of Investigation. Incident-Based Reporting is a less restrictive and more expansive method of collecting crime data as opposed to the current Uniform Crime Reporting (UCR) Summary Program from which the statistics in this publication have been drawn.

With Incident-Based Reporting, the SBI has overcome most of the limitations on crime analysis imposed by the UCR Summary Program simply by changing the method by which crime data is collected and compiled in this state. Conversion to Incident-Based Reporting has eliminated the monthly completion of time-consuming and often error-filled summary reports by the contributing agencies. Instead, agencies submit crime data electronically to the SBI in accordance with IBR specifications.

The advantages of such a reporting system are obvious: 1) less paperwork imposed upon participating agencies; 2) better overall uniformity and validity of crime data; and 3) a vastly enhanced crime data base for analysis purposes.

To fully appreciate the advantages of an enhanced data base, consider that statewide data for the following offenses is not available through the UCR Summary Program: 1) kidnapping; 2) white collar crime in its various forms; 3) the writing of worthless checks and other types of fraud; 4) spouse abuse; 5) child molestation, abuse and neglect; 6) non-support, and desertion or abandonment; 7) blackmail and extortion; 8) escape from custody and resisting arrest; 9) parole and probation violations; and 10) court-related offenses such as perjury and failure to appear.

In addition to the above information, Incident-Based Reporting will provide the first valid analysis of the extent of juvenile crime and the criminal misuse of handguns in North Carolina, which would be invaluable in determining appropriate legislation for dealing with these problems. This program may provide limited examination of the modus operandi (M.O.) of crimes which could be studied and compared on a statewide basis.

With increased automation of law enforcement records, the SBI hopes statewide Incident-Based Reporting will become a reality in the near future.

## Contributing Agencies and Population Coverage<sup>1</sup>

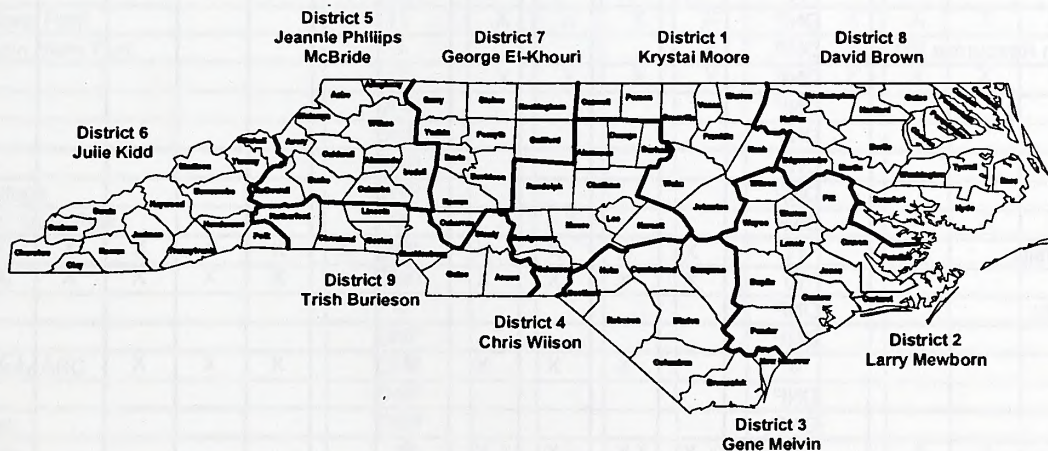

There is currently an average of 490 law enforcement agencies throughout the State contributing directly to the North Carolina Uniform Crime Reporting Program. The table below sets forth the number of agencies by type that have participated in the Crime Reporting Program through December 2001. The State Highway Patrol and the Wildlife Commission are each counted as one agency even though a monthly report is received reflecting activity in each county. Uniform Crime reports received from these agencies represent statistical data covering approximately 99.1 percent of the estimated North Carolina population.

January 1, 2001 - December 31, 2002

Average	Police	Sheriff	State Parks	Campus Police	Other Agencies	% of Pop. Cov.
467	314	97	30	23	3	99.1

# Chapter 2

## North Carolina Crime Overview

# North Carolina Crime Overview

## The Crime Index

For the purposes of measuring the volume, fluctuation, and the distribution of crime on the state and national levels, the Uniform Crime Reporting (UCR) Program is based on a Crime Index. The Crime Index consists of seven major crimes selected for use on the basis of their serious nature, their frequency of occurrence, and on the reliability of reporting from citizens to law enforcement agencies. Crimes within this index can be further categorized as violent crimes and property crimes.

**Index Crimes** include murder, forcible rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft.

**Violent Crimes** include murder, forcible rape, robbery, and aggravated assault.

**Property Crimes** include burglary, larceny, and motor vehicle theft.

The UCR Crime Index offenses and their definitions, listed in order of seriousness, are:

**Murder** - The willful (nonnegligent) killing of one human being by another.

**Forcible Rape** - The carnal knowledge of a female forcibly and against her will.

**Robbery** - The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

**Aggravated Assault** - An unlawful attack by one person upon another for the purpose of inflicting severe bodily injury.

**Burglary** - The unlawful entry of a structure to commit a felony or theft.

**Larceny** - The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.

**Motor Vehicle Theft** - The theft or attempted theft of a motor vehicle.

# North Carolina Crime Clock 2001

1 Index Crime every 1 Minute 19 Seconds

1 Violent Crime every 13 Minutes 14 Seconds

1 Property Crime every 1 Minute 28 Seconds

1 Murder	every	17	Hours
1 Rape	every	4	Hours
1 Robbery	every	40	Minutes
1 Aggravated Assault	every	22	Minutes
1 Burglary	every	5	Minutes
1 Larceny	every	2	Minutes
1 Motor Vehicle Theft	every	22	Minutes

Note: As the most aggregate representation of UCR data, the Crime Clock should be viewed with care. The Crime Clock conveys the relative frequency of occurrence of the Index Crimes. This display does not imply any regularity in the commission of crimes, but rather, the clock represents the annual ratio of crime to fixed time intervals.

## Crime in the United States

### 2000 Index Crime by State

The source for the table below is the Federal Bureau of Investigation's publication, *Crime in the United States, 2000*. The number of Index offenses and crime rates per 100,000 population are estimated for 100% population coverage. See the following page for Index, Violent, and Property Crime rates by state.

State	Number of Offenses	Index Crime Rate	State Population	State	Number of Offenses	Index Crime Rate	State Population
Alabama	202,159	4,545.9	4,447,100	Montana	31,878	3,533.4	902,195
Alaska	26,641	4,249.4	626,932	Nebraska	70,085	4,095.5	1,711,263
Arizona	299,092	5,829.5	5,130,632	Nevada	85,297	4,268.6	1,998,257

## Robbery by Weapon Five Year Comparison

<sup>1</sup>Present UCR classification and scoring procedures prevent a precise measurement of robbery classifications and their corresponding values. See Scoring of Offenses in Chapter 1. Further, the total value stolen cannot be determined at the time of police investigation. This is especially true with regard to bank robbery. Compare the bank robbery statistics in this table with those provided on the following page by the FBI.

# Bank Robbery<sup>1</sup>

These bank robbery statistics are supplied by the Federal Bureau of Investigation and include only Federally insured institutions. **Note: 2001 data is not available from the F.B.I. at the time of printing.**

## N.C. and U.S. Bank Robberies by

	1999	2000
North Carolina	249	318
United States	6,988	7,546

## U.S. Bank Robberies by Time of Day

2000 Robberies: 7,546

## U.S. Bank Robberies by Day of Week

<sup>1</sup> Data includes bank robberies, burglaries, larcenies, and extortions

## Aggravated Assault

Aggravated Assault is defined as an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

<sup>2</sup>Violent crime includes the offenses of murder, rape, robbery, and aggravated assault.

<sup>3</sup>Property crime includes the offenses of burglary, larceny, and motor vehicle theft.

## Violent Crime Offenses

## Violent Crime Rate

# Chapter 5

## Crime Index by Jurisdiction

# Crime Index by Jurisdiction

## Introduction

The following tables contain statistical data contributed by N.C. law enforcement agencies for the years 2000 and 2001. Each county is listed alphabetically. All data is final as of August 1, 2001. Please note that 2000 data has been updated since the last annual release reflecting the addition of reports received after the 2000 publication deadline.

## Crime Rate

In the table entitled "Crime Rates Per 100,000 By County," the crime rates have been determined by dividing 100,000 by the estimated population and multiplying this factor by the total number of offenses reported in each instance. For example:

Agency A	Year 1998		Number of Offenses 2,000		Agency Population 25,000
Computation:	100,000	+	25,000 (population)	=	4.0
	4.0	x	2,000 (offenses)	=	8,000 Rate per 100,000

Therefore, the rate per 100,000 population for Agency A's total index would equal 8,000.

## Crime Index

In the table entitled "Agency Profile," the **Crime Index Total** column reflects the addition of the seven Index offenses which appear under the **Violent** and **Property Crime** headings. The number of reported arsons has not been included as part of the **Crime Index**, nor as part of the **Crime Index Total**, nor as a factor in the crime rate calculations.

The total number of offenses reported statewide by the Wildlife Commission and the State Highway Patrol are listed separately at the end of the table.

## Percent Changes

Space did not allow for the calculation of percent changes from year to year, but this change may be obtained by subtracting the number of offenses from Year 2 from the number of offenses from Year 1 and then dividing the difference by offenses from Year 1. Multiply that number by 100 to change to percent, which could be either a positive or negative number. For example:

Agency A	Year Year 1		Number of Offenses 1,500		
	Year 2		2,000		
Computation:	2,000 (yr 2)	-	1,500 (yr 1)	=	500
	500	÷	1,500 (yr 1)	=	.333 (x 100) = 33.3%

Since the number of reported offenses increased in Year 2, the percent change would be an increase of 33%.

## Arson

Many N.C. law enforcement agencies do not routinely investigate the offense of arson unless this crime has been committed in conjunction with the occurrence of some other offense (such as murder, burglary, etc.). Arson investigation remains predominantly within the domain of fire services in North Carolina, and therefore many of these offenses occur and go unreported to local law enforcement.

Since the N.C. UCR Program does not collect statistics directly from the fire service community, the extent of arson as a crime problem in this state may be severely underestimated based upon the statistics contained in this publication. The number of arsons reported as stated in these tables is only those of which N.C. law enforcement has been made aware.

## Months (Mos.) On File

The **Months on File** column indicates the number of months reported for each year on file at the SBI. See Chapter 1 for a listing of incomplete reporting and contributing agencies and population coverage.

## Demographic Data

The 2000 and 2001 population estimates have been provided by the Office of State Planning under the Governor's Office and are based on the 2000 Census figures. The population of non-jurisdictional areas such as military installations has been subtracted from these estimates when necessary. The fact that these estimates do not take into account the seasonal population fluctuations of resort and campus localities, analysis of crime rates in these particular areas should be viewed with caution.

### Employee Data

The Police Employee data provided lists the number of those full-time sworn and civilian people employed at each agency as of October 31 of the year indicated. The number of part-time employees is not listed but is available upon request.

### Special Characters

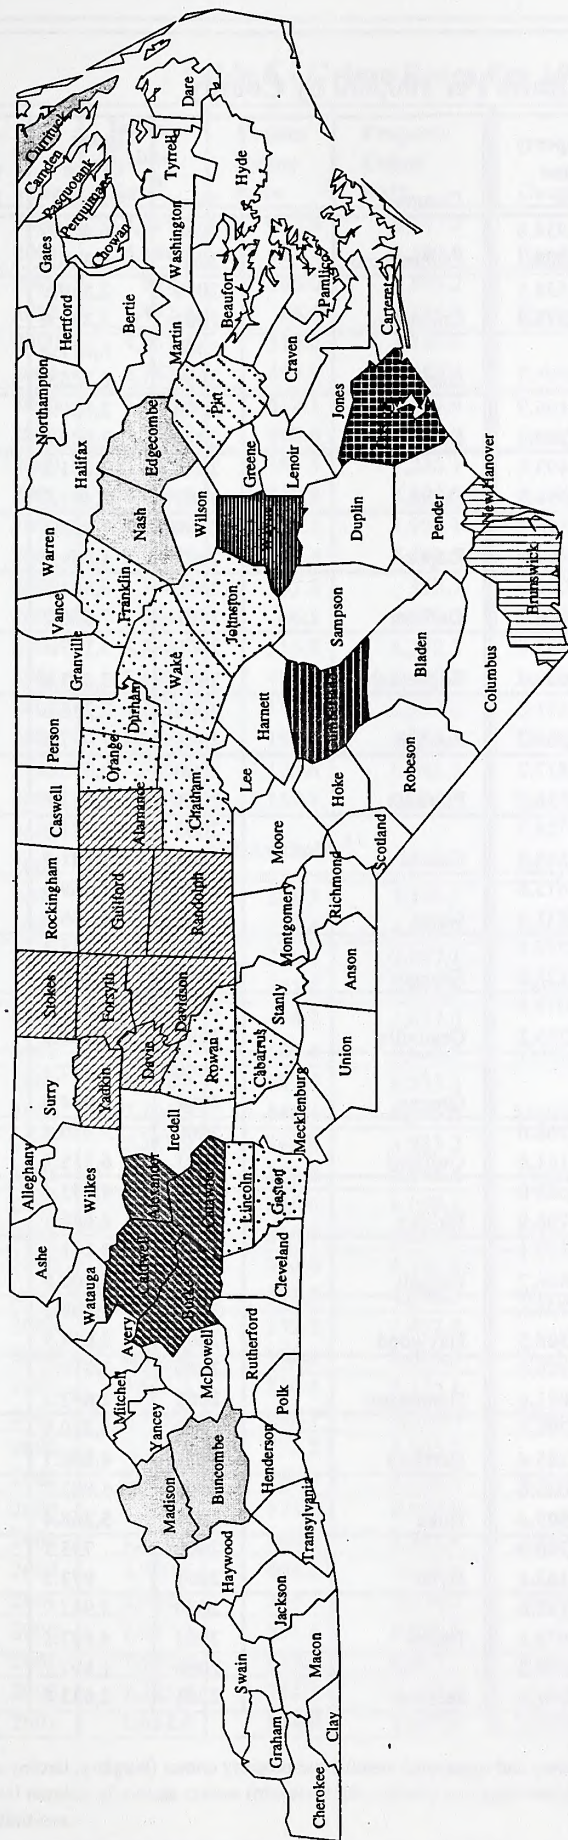

Variations in agency reporting have caused for special characters to be used in place of statistical data in some instances. The following legend translates these characters:

- Cover - Indicates this area was covered by another agency for crime reporting purposes for all or most of the reporting year.
- DNP - Did not participate in the UCR Program for whatever year indicated.
- NA - Not Applicable. This character was generally used whenever a reasonable crime rate could not be calculated.
- (Pop.) - The population for this jurisdiction was not included in the county or state totals because of non-UCR participation.

**Note:** All UCR data provided is actual. Estimates for 100% population coverage have not been used.

# N.C. Metropolitan Statistical Areas

## MSA's by City and County:

1. Asheville (Buncombe and Madison Counties)
2. Charlotte-Gastonia-Rock Hill (Cabarrus, Gaston, Lincoln, Mecklenburg, Rowan and Union Counties)
3. Fayetteville (Cumberland County)
4. Goldsboro (Wayne County)
5. Greensboro-Winston Salem-High Point (Alamance, Davidson, Davie, Forsyth, Guilford, Randolph, Stokes and Yadkin Counties)
6. Greenville (Pitt County)
7. Hickory-Morganton (Alexander, Burke, Caldwell and Catawba Counties)
8. Jacksonville (Onslow County)
9. Norfolk-Virginia Beach-Newport News (N.C. Part-Currituck County)
10. Raleigh-Durham-Chapel Hill (Chatham, Durham, Franklin, Johnston, Orange and Wake Counties)
11. Rocky Mount (Edgecombe and Nash Counties)
12. Wilmington (Brunswick and New Hanover Counties)

<sup>1</sup> Index Crime includes the total number of violent crimes (murder, rape, robbery and aggravated assault) and property crimes (burglary, larceny and motor vehicle theft). See front page for offense definitions.

<sup>2</sup> Over 50 percent of the county population was not covered.

<sup>3</sup> Since Rocky Mount is located in both Edgecombe and Nash Counties, offenses in Rocky Mount are included in the county where the crime occurred.

# Chapter 6

## Hate Crime

# Hate Crime Reporting

## Introduction

The SBI provides assistance to agencies in hate crime reporting by providing forms, reporting assistance and statistical analysis. From 1992 through 1994, the SBI received a limited number of hate crime reports. In 1995, fifty-nine agencies reported 52 hate crime incidents to the SBI; in 1996, eighty-three agencies reported 34 hate crime incidents; in 1997, twenty-two agencies reported 42 hate crime incidents; and in 1998 seventeen agencies reported 40 hate crime incidents; and in 1999, fifteen agencies reported 31 hate crime incidents; in 2000, fifteen agencies reported 39 hate crime incidents, and in 2001, forty-one agencies reported 85 hate crime incidents. While this limited participation is not sufficient to allow valid statewide measures of the volume and types of crimes motivated by hate, these reports do offer perspectives on the general nature of hate crime occurrences.

<sup>1</sup>The term "victim" may refer to a person, businesses, institution or society as a whole.

<sup>2</sup>The term "known offender" does not imply that the identity of the suspect is known, but only that an attribute of the suspect is identified which distinguishes him/her from an unknown offender.

<sup>1</sup>For counting purposes, one offense is counted for each victim of a "crime against person." One offense is counted for each distinct operation of "crime against property," regardless of the number of victims.

<sup>2</sup>The term "victim" may refer to a person, businesses, institution or society as a whole. The total number of victims in a given incident is the sum of victims associated with each offense that took place within the incident.

<sup>3</sup>The term "known offender" does not imply that the identity of the suspect is known, but only that an attribute of the suspect is identified which distinguishes him/her from an unknown offender.

# Chapter 7

## Value of Property Stolen and Recovered

## Property Stolen and Recovered

The tables and charts on the following pages indicate the value of property stolen and recovered by month, type, and offense in North Carolina during 2001. These values relate only to Index Crime. Property lost or damaged as a result of crimes such as fraud, embezzlement, vandalism, and the remainder of the non-index offenses are not included in these totals.

### Value of Property Stolen and Recovered By Month - 2001

Month	Value Stolen	Value Recovered	% Recovered
January	\$ 44,783,158	\$ 13,128,828	29.3
February	32,186,761	11,841,277	36.8
March	37,048,920	11,576,359	31.2
April	45,937,939	12,390,944	27.0
May	58,709,660	14,073,160	24.0
June	46,602,877	13,170,230	28.3
July	51,548,320	14,577,097	28.3
August	43,044,732	12,406,882	28.8
September	44,286,664	34,275,730	77.4
October	49,115,990	29,474,514	60.0

<sup>1</sup>Over 50 percent of the county population was not covered.

<sup>2</sup>Since Rocky Mount is located in both Edgecombe and Nash counties, Rocky Mount's offenses and stolen/recovered property are included in the county in which the crime occurred.

<sup>3</sup>Does not include the Cherokee Indian Reservation.

# Chapter 8

## Arrest and Clearance Data

# Arrest and Clearance Data

## Index Crime Clearance Rates

An offense is considered cleared when at least one offender is arrested for an offense, even though several may have been involved. Offenses may also be cleared by exceptional means when some element beyond law enforcement control precludes the placing of formal charges against the offender.

The percentage of crimes cleared by arrest or exceptional means is obtainable by dividing the number of offenses cleared by the number of offenses known and multiplying the resultant by 100 as:

$$\frac{50 \text{ (robberies cleared)}}{153 \text{ (robberies known)}} \times 100 = 32.67 \text{ percent cleared.}$$

Offense	2000				2001			
	Number of Offenses	Percent Distribution	Number Cleared	Percent Cleared	Number of Offenses	Percent Distribution	Number Cleared	Percent Cleared

## Chapter 9

# Law Enforcement Officers Killed and Assaulted

## Law Enforcement Officers Killed and Assaulted

### Felonious Deaths

During 2001, five North Carolina law enforcement officers were killed in the line of duty.

May 12, 2001, **Brian Joe Ramey** - Bladenboro Police Department

September 14, 2001, **Monica Williams Carey** - Clayton Police Department

September 26, 2001, **James Brian Collins** - Bladen County Sheriff's Office

November 30, 2001, **Roy Gene Turner, Jr.** - Fayetteville Police Department

December 25, 2001, **Donald Matthew Miller** - New Bern Police Department

### Accidental Deaths

Five North Carolina law enforcement officers died as the result of duty-related accidents in 2001.

January 9, 2001, **John H. Duncan, Jr.** - North Carolina Highway Patrol

August 7, 2001, **David L. Taylor, Jr.** - Greensboro Police Department

September 14, 2001, **Jesse Lee Pratt** - Anson County Sheriff's Department

October 3, 2001, **Calvin Eugene Taylor** - North Carolina Highway Patrol

December 23, 2001, **Sheila Dianne Twyman** - High Point Police Department

### Situations in Which North Carolina Law Enforcement Officers Were Killed - 1991 to 2001

Thirty-three officers have been killed in the last eleven years.

### Criminal History of Persons Identified in the Killing of Law Enforcement Officers from 1992 to 2001

	1992	1993	1994	1995	1996	1997	1998	1999	2000	2001	Total
Persons with Prior Arrest for Criminal Charge	3	3	2	2	0	2	1	1	1	1	16
Persons Convicted on Prior Criminal Charge	2	3	2	1	0	0	1	1	0	0	10

Persons with No Criminal History	0	0	0	0	1	3	0	2	0	0	6
<b>Total Persons Identified</b>	<b>3</b>	<b>4</b>	<b>2</b>	<b>2</b>	<b>1</b>	<b>5</b>	<b>1</b>	<b>3</b>	<b>1</b>	<b>1</b>	<b>22</b>

### Law Enforcement Officers Killed 1992 to 2001

## Law Enforcement Officers Assaulted

The following tables include all assaults on law enforcement officers with or without injuries.

### Assaulted By Month

### Trend

Year	No. of Offenses	% Change (over previous year)	Number Cleared	Percent Cleared
1997	2,984	+ 5.3	2,798	93.8
1998	2,723	- 8.7	2,519	92.5
1999	2,341	-14.0	2,231	95.3
2000	2,107	-10.0	1,976	93.8
2001	2,178	+ 3.4	2,003	92.0

### 2001 Features

Most Frequent Month	January
Least Frequent Month	April
Most Frequent Situation	Disturbance Call
Most Frequent Assignment	One Officer Vehicle - Assisted
Most Frequent Time of Occurrence	12 -2 am

### Injuries to Law Enforcement Officers

Injury	Number of Offenses		Percent Change	Percent Distribution	
	2000	2001		2000	2001
Injured	64	122	+90.6	3.0	5.6
No Injury	2,043	2,056	+ 0.6	97.0	94.4
Total	2,107	2,178	+ 3.4	100.0	100.0

## Situation and Assignment At The Time of Assault 2000 & 2001

### Situation

### Assignment

### Officer Assaults by Time of Day

### Type of Weapon Used

Type	Number of Offenses		Percent Change	Percent Distribution	
	2000	2001		2000	2001
Firearm	80	112	+40.0	3.8	5.1
Knife, Cutting Instrument	35	26	-25.7	1.7	1.2
Other Dangerous Weapon	197	230	+16.8	9.3	10.6
Hands, Fist, Feet, Etc.	1,795	1,810	+ 0.8	85.2	83.1
<b>Total</b>	<b>2,107</b>	<b>2,178</b>	<b>+ 3.4</b>	<b>100.0</b>	<b>100.0</b>

### Officer Assaults

# Appendix

## Glossary of Terms and Abbreviations

**Adult** - For Uniform Crime Reporting (UCR) purposes, a person 18 years of age or older. (N.C. criminal statutes define an adult as a person 16 years of age or older).

**Arrest Rate** - The number of arrests reported for each unit of population (per 100,000 people in this publication).

**Classifying** - Determining the correct UCR Part I or Part II offense category based on the facts contained in the police investigation report.

**Clearance Rate** - The percentage of offenses cleared which is obtained by dividing the number of clearances made in any particular offense category by the number of offenses reported in that same category.

**Cleared by Arrest** - For UCR purposes, an offense is considered cleared (solved) by arrest when at least one person involved in the commission of the offense is: 1) arrested; 2) charged with the commission of the offense; and 3) turned over for prosecution.

**Cleared by Exceptional Means** - For UCR purposes, an offense is considered exceptionally cleared (solved) in those instances in which law enforcement has: 1) definitely established the identity of the offender; 2) enough information to support an arrest, charge, and turning over to the court for prosecution; 3) in their knowledge the exact location of the offender so that the subject could be taken into custody; and yet 4) some reason outside their control precludes arresting, charging, and prosecuting the offender.

**Cover** - Indicates an area was covered by another agency for crime reporting purposes for all or most of the reporting year.

**Crime Factor** - Any condition which may affect the amount and type of crime that occurs in a geographical area.

**Crime Index** - The sum total of seven major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. Crime classifications presently used in the index are: 1) murder; 2) forcible rape; 3) robbery; 4) aggravated assault; 5) burglary; 6) larceny; and 7) motor vehicle theft. Note that although arson is considered an index crime, the number of these offenses reported does not now constitute part of the Crime Index in North Carolina.

**Crime Rate** - The number of Index offenses (less arson) reported for each unit of population (per 100,000 people in this publication).

**DNP** - Did not participate in the Uniform Crime Reporting Program for whatever year indicated.

**FBI** - Federal Bureau of Investigation, a division of the U.S. Department of Justice and administrators of the National Uniform Crime Reporting Program.

**Hierarchy Rule** - A standard UCR scoring practice in which only the most serious offense (as determined by the established index crime order) is counted in a multiple offense situation. For exceptions to this rule see the section in this publication entitled "Considerations for Interpretation."

**Hotel Rule** - A standard UCR scoring practice which limits to one the number of burglaries which can be counted when more than one room is entered for the purpose of committing a felony or theft within a structure generally intended to house transients.

**Incident-Based Reporting** - A less restrictive and more expansive method of collecting crime data (as opposed to Summary Reporting) in which all the analytical elements associated with an offense or arrest are compiled by a central collection agency on an incident-by-incident basis.

**Index Crime** - Any one of eight major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. The eight Index crimes are: 1) murder 2) forcible rape, 3) robbery, 4) aggravated assault, 5) burglary, 6) larceny, 7) motor vehicle theft, and 8) arson:

**Justifiable Homicide** - The killing of a felon (while the subject is in the act of committing a felony) by a private citizen or police officer in the line of duty. Justifiable homicides are unfounded murders and are, therefore, not counted as part of the sum total of murders reported in the Crime Index.

**Juvenile** - For UCR purposes, a person under the age of 18. (N.C. criminal statutes define a juvenile as a person under the age of 16).

**MSA** - Metropolitan Statistical Area.

**NA** - Not Applicable. This character was generally used whenever a reasonable crime rate or percent change could not be calculated.

**Part I Offenses** - The first of two main groupings of UCR crime classifications consisting of the eight index crimes plus manslaughter by negligence. Part I offenses are by their very nature generally more serious and/or occur more frequently than the Part II offenses.

**Part II Offenses** - The second of two main UCR groupings of crime classifications consisting of all other crime categories not already designated as Part I excluding minor traffic violations. Part II offenses are generally less serious in nature and/or occur less frequently than the Part I offenses. With the exception of simple assault, monthly tabulation of Part II offenses is limited to arrest information only in the Summary Reporting System.

**Police Employee Rate** - The number of full-time sworn law enforcement officers employed for each unit of population. Local rates may be obtained by dividing 1,000 (for rate per 1,000 people) by the population of the city or county jurisdiction and multiplying this factor by the number of full-time sworn.

**Property Crime** - Any one of the sum total (less arson) of the following offenses: 1) burglary, 2) larceny, 3) motor vehicle theft, and 4) arson.

**SBI** - State Bureau of Investigation, administrators of the N.C. Uniform Crime Reporting Program.

**Scoring** - Counting the number of offenses committed after the police investigation report has been classified. (For a discussion of UCR scoring rules and procedures, see the section in this publication entitled "Considerations for Interpretation.")

**Structure** - For UCR purposes, generally any enclosed area intended for permanent use or occupation. A "structure" is considered to include, but not limited to, the following: a dwelling house, apartment, out buildings, public buildings, offices, factories, etc.

**Summary Reporting** - A method of collecting crime data adopted for national reporting purposes in which a limited amount of analytical data associated with an offense or arrest is compiled by central collection agency from summary reports completed by each contributing agency.

**Unfounded Offense** - A record of complaint which is found to be false or baseless after police investigation. The number of these complaints received is not included in the actual number of offenses reported used in the tabulation of the crime index, rate, etc.

**Violent Crime** - Any one or the sum total of the following offenses: 1) murder; 2) forcible rape; 3) robbery; and 4) aggravated assault.

**UCR** - Uniform Crime Reporting.
